Meet Neutra Boost® - an innovative technology of unpleasant odour neutralisation.

Our sense of smell is particularly sensitive to bad odours, as their role is to warn us of danger.

We found molecules responsible for bad smells, i.e. amines, thiols, sulphides or aldehydes.

The reliable Neutra Boost® formula effectively eliminates them ensuring long-lasting freshness.

Neutralises unpleasant odours no matter the source.

Pet odours / intense food aroma / cigarette smell / sweat
